

microflex®

984 Injector Direct Protection

Provides effective protection against fuel-related deposits on injectors thanks to innovative ROA² technology that forms a molecular-active protective film. Use to minimise fuel consumption and keep emissions values low. Adding the product to the fuel tank is proven to keep the fuel line with the DIN EN 590 fuel standard.

TUNAP

13400 Valve Clean System

Special cleaning tool for valves and surrounding ducts. Fast, material conserving cleaning thanks to the special 933 valve cleaning granulate. With the 936 neutralisation solution, residual particles of the granulate are broken down and do not reach the combustion chamber.

TUNAP

Product information for Aerosols, Lubricants and Cleaning solutions

Products that are designed to help make your garage standards even better.

- ✓ Prevents engine damage
- ✓ Avoid costly repairs
- ✓ Safe and easy to use
- ✓ Sustainable & environmentally friendly

“Not only are 974 and 984 exceptional cleaners for the injectors and fuel line, but they are also well-priced and very profitable for our business. To top it off the products are 100% recyclable.”

Glen from Motors on Malop, Malop St, Geelong.

microflex[®] 957 Engine Interior Cleaner

TÜV-approved, solvent-free cleaner based on a high-quality, low-viscosity oil with high-performance cleaning agents. The cleaner protects the new engine oil against contamination from used oil residues.

Properties

- ✓ Free of volatile organic compounds (VOCs)
- ✓ Contains low-viscosity detergents to deliver outstanding cleaning results
- ✓ Removes oil sludge deposits from the engine oil system
- ✓ Protects the engine from being damaged as a result of blocked oil channels and bore holes
- ✓ Contains additives to lubricate components during the cleaning process
- ✓ Does not contain any chlorine, phosphates, nitrates or heavy metals
- ✓ Can be disposed of with the used oil

"Overall the cleaning of an engine using TUNAP 957 surpasses any solvent-based product I know that is on the market today.

After using solvent-based oil flushes the past five years, and then being introduced to TUNAP 957 in the last 12 months, I have seen an improvement in my health; I believe our work environment is healthier with less toxic smells and chemicals."

microflex[®] 931 Particulate Filter Cleaner

Non-flammable, metal-free special cleaner for cleaning off soot and ash deposits in the particulate filter. Evaporates without leaving residue. The unique wetting properties enable the cleaner to loosen and clean off soot and ash deposits from porous honeycomb structures as are present in the particulate filter.

microflex[®] 19330 Particle Filter Pressure Cup Spray Gun

Special tool for cleaning particulate filters

microflex[®] 932 Flushing Concentrate

Neutral, ash and metal-free solution for flushing after particulate filter cleaning. Evaporates without leaving residue. Guarantees a cleaner particulate filter that can be regenerated again.
