

Human Technology® 913 Brake Paste

Metal-free brake and assembly paste for use in high and low temperature range from -40°C to +1600°C. Lubricant, release agent and anti-corrosion material for problem-free dismantling and for preventing frictional corrosion. Extremely resistant to salt water and spray water. Reduces friction and wear. For basic and thin-film lubrication.

Properties

- ✓ Extremely pressure and temperature resistant from -40°C to +1,600°C
- ✓ Extremely high drop point
- ✓ Extremely adhesive and resistant to salts and aggressive chemicals
- ✓ Excellent corrosion protection, salt spray tested to DIN EN ISO 9227
- ✓ Reliably prevents contact corrosion between different metals
- ✓ Very good cushioning properties
- ✓ Outstanding pressure absorption and excellent separating effect 8500N VKA value

Human Technology® 909 Interior Complete

Innovative multi-functional interior cleaner for plastic, glass and textile surfaces. Fast-acting and excellent cleaning performance. Convenient to use thanks to foaming behaviour. Does not affect the original character of plastic surfaces. Unpleasant odours are neutralised. No smearing on the windscreen.

Properties

- ✓ Special tensides for streak-free cleaning effect
- ✓ Optimised ventilating properties for excellent loosening effect on insect residues
- ✓ Reliably removes oil and grease residues from textiles
- ✓ Free from harmful perfume oils
- ✓ Excellent material compatibility
- ✓ Does not affect the original character of plastic surfaces (e.g. dashboards)

Product information for Human Technology range

Products that are designed to help make your garage standards even better.

- ✓ Outstanding quality
- ✓ N-hexane free
- ✓ Designed with the end users health and well-being in mind
- ✓ Safe and easy to use
- ✓ Sustainable & environmentally friendly

Human Technology® 901 Liquid Grease Flow

High-quality synthetic active liquid grease with PTFE. Excellent creep and lubricating effect and outstanding corrosion protection. Ideal long-term care for all moving, metallic parts.

Properties

- ✓ Very good anti-corrosion protection and wear protection through use of a calcium-complex formula
- ✓ Reduces friction also under extreme conditions, through use of PTFE
- ✓ Very good creeping properties
- ✓ Stable at temperatures from -40°C to +200°C
- ✓ Does not gum up and does not stick

Human Technology® 907 Silicone Protect

A synthetic active spray for door rubbers and all plastic guides in the interior of a vehicle. Prevents unwanted noises from occurring in an area where plastic meets metal and rubber. Its water repellent protective coating reduces friction wear. Resistant to both high and low temperatures.

Properties

- ✓ Prevents unwanted noises when plastics come into contact with each other or with metal and rubber
- ✓ Colourless oily film reduces frictional wear
- ✓ Temperature-resistant from -40°C to +200°C
- ✓ Especially high adhesion on plastics and rubber
- ✓ Highly durable and water-repellent protective layer

Human Technology® 916 Universal Cleaner Plus

Special cleaning fluid for use in physiologically and ecologically sensitive areas. Residue-free cleaning for grease-free surfaces and easy follow-up processes. Removes and dissolves oily dirt, grease and silicone.

Properties

- ✓ 100% free of n-Hexane
- ✓ Removes oil, grease, resin, silicone and corrosion protection layers
- ✓ Binds and washes away abrasive dust
- ✓ Dries off quickly
- ✓ High spray pressure for optimised cleaning effect even in difficult-to-reach areas
- ✓ Kosher and Halal certified

Human Technology® 902 Synthetic Oil Fluid

Innovative, active synthetic oil for long-term lubrication. Suitable for all moving metallic parts. Also ideal for precision engineering and precision parts — no resin deposits or adhesion.

Properties

- ✓ Very good corrosion and wear protection
- ✓ Solvent-free, resulting in a very short flash-off time
- ✓ Very good creep effect
- ✓ Thermally stable from -40°C to +200°C
- ✓ No resin or adhesive effect
- ✓ Compatible with most sealing materials

Human Technology® 915 Cleaner

N-hexane free cleaner for maintenance, repair and assembly work. Less harmful to users health. Removes dust, encrusted dirt, oil, grease, resin and corrosion protection layers.

Properties

- ✓ Outstanding cleaning performance with minimum risk potential
- ✓ Reduced risk of fire and consequences of fire
- ✓ State-of-the-art cleaner technology
- ✓ Minimum risk potential
- ✓ Recommended product in accordance with the German Ordinance on Hazardous Substances (protection level 2)

Human Technology® 921 Synthetic Adhesive Lubricant Strong

A new type of extremely adhesive synthetic lubricant from the TUNAP Human Technology® series for use under a vehicle. Extremely good resistance to spray and salt water as well as a high resistance to high pressures and temperatures.

Properties

- ✓ Extremely good resistance to spray and salt-water
- ✓ Does not contain solvent, therefore evaporates extremely quickly
- ✓ High resistance to high pressures and temperatures
- ✓ Extremely good adhesion on all surfaces
- ✓ Very good transparent anti-corrosion protection
- ✓ Very good creeping and penetration effects after spraying on
- ✓ Very good evaporation properties
